

CURRICULUM

Academic year 2024-2025

Faculty:	Faculty of Law
Cycle of university studies	Master's
Master's Program:	Dreptul Uniunii Europene/ European Union Law
Qualification¹	Specialist în Dreptul Uniunii Europene/ Specialist in European Union Law
Title awarded	Master in Law
Period of study	1 year
Number of credits (ECTS):	60
Form of education:	Full - time education (IF) ²
Teaching language:	English
Location	Timișoara
Classification the study programme in fields of science	
Fundamental field:	Social Sciences
Branch of science:	Legal Sciences
Field of master's program studies	Law
Wide field of study (DL-ISCED F-2013):	Business, administration and law
Restricted field of study (DR-ISCED F-2013):	Law
Detailed field of study (DDS-ISCED F-2013):	Law

¹ Qualification is the formal result of an assessment and validation process, which is obtained when a body / competent authority establishes that a person has achieved learning outcomes corresponding to pre-established standards. The qualifications acquired by the graduates of the higher education study programs are attested by diplomas, certificates and other study documents issued only by accredited higher education institutions.

² Full-time education (IF) or reduced-frequency education (IFR)

GENERAL PRESENTATION OF THE UNIVERSITY STUDY PROGRAM

1. Objectives and competencies³

The main objective of the program is that the students acquire the competencies allowing them to understand the European Union law in its relationship with the domestic systems of the Member States.

The objective and competencies developed in accordance with the needs identified on the market are synthetically presented below and explained in detail in the description of each discipline mentioned in the curricula.

Specific objectives:

1. To know and properly use the concepts of the European Union law;
2. To know the mechanisms of the European judicial control, to know the conditions of admissibility and the proceedings in front of the ECJ. To know the types of action given *ratione materiae* in the competence of the ECJ;
3. To understand the essential part played by competition and consumer law in configuring the public economic legal order of the European Union;
4. To know the European principles, regulations and jurisprudence in the field of fiscal law;
5. To know and properly use the private law concepts of the European Union;
6. To know the main principles of the European Union company law. To understand the importance of the doctrine and of the jurisprudence, as well as the methodological constraints of the research in this field;
7. To develop students' sensitivity towards the values that undergo the fundamental rights in a democratic society;

³ The mission and objectives of the study program must be consistent with the mission of the WUT and the requirements identified on the labor market.

According to the University Charter (Article 5), the general mission of WUT is advanced scientific research and education, generating and transferring knowledge to society through:

- a) scientific research, development, innovation and technological transfer, through individual and collective creation, in the field of sciences, engineering sciences, letters, arts, by ensuring physical and sports performances and development, as well as the valorization and dissemination of their results;
- b) initial and continuous training, at university level, for the purpose of personal development, the professional insertion of the individual and satisfying the skills needs of the socio-economic environment.

WUT assumes its own mission as a catalyst for the development of Romanian society by creating an innovative and participatory environment for scientific research, learning, cultural-artistic creation and sports performance, transferring skills and knowledge to the community through education, research and consultancy services which they offer to partners from the economic and socio-cultural environment.

The achievement of the WUT mission is embodied in (Article 6 of the UVT Charter):

- promoting scientific research, literary-artistic creation and sports performance;
- initial and continuous training of qualified and highly qualified human resources;
- development of critical thinking and creative potential of members of the university community;
- creating, hoarding and spreading the values of human culture and civilization;
- promoting multicultural, multilingual and interfaith interference;
- affirmation of Romanian culture and science in the world circuit of values;
- the development of Romanian society within a free and democratic state.

8. To develop students' sensitivity towards the enforcement of foreign law, international instruments and European Union law regulations within a criminal or private law trial;
9. To know and properly enforce the European regulations within the field of international private law;
10. To know the basics of the internet law.

2. Competencies and expected learning outcomes formed within the study program

A. COMPETENCIES⁴

Key competences⁵:

1. Multilingual skills;
2. Personal, social and learning skills;
3. Civic skills;
4. Entrepreneurial skills.

Professional competencies⁶:

1. Identifying, using strategies, methods and techniques within the field of the European Union law:
 - Putting into practice the concepts, theories, paradigms and methods while analysing the legal system of the European Union;
 - Providing for system analyses within the context of Romanian law;
 - Transforming the theoretical knowledge and specific instruments of the European Union law in order to solve concrete problems;
 - Identifying and using relevant techniques and indicators to monitor and assess processes;
 - Elaborating a plan of activity improvement for clear cut situations;
 - Elaborating action strategies in case of conflicts between the internal practices and the European Union law.
2. Identifying the tendencies of the society within the context of Romania's accession to the European Union and faced to the need of adapting the work instruments to the national context:

⁴ *Competence* is the proven capacity to select, combine and adequately use personal, social and/or methodological knowledge, skills and abilities and other acquisitions consisting of values and attitudes, for successfully solving a certain category of work or learning, as well as for professional or personal development in conditions of effectiveness and efficiency.

⁵ *Key competences for lifelong learning* are those competences that all citizens need for personal fulfillment and development, employment, social inclusion and active citizenship, being developed in a lifelong learning perspective, starting from early childhood and throughout adult life through formal, non-formal and informal learning.

⁶ *Professional competencies* represent the capacity to perform the activities required at the workplace at the qualitative level specified in the occupational standard. They are acquired formally, respectively by completing a program organized by an accredited institution.

- Adapting the latest theories in the field of the European Union law to the reality of Romanian legal system;
- Using the instruments specific to the European Union law in order to achieve professional performance;
- Adapting the legal knowledge in order to identify solutions to solve conflictual situations resulting from the divergence between the national and European Union law;
- Identifying and using relevant techniques and indicators to assess the results of the enforcement of European Union law in Romania;
- Elaborating data bases specific for the European Union law, according to the needs and interests of the destinatary;
- Establishing the results of an investigation on using internal work instruments within the European context of professional collaboration.

3. Elaborating studies, statistics and reports relevant to professionals and communicating them to the interested persons and bodies:

- Using the proper methods of communication in the field of the European Union law in the relationship with the various actors of legal life;
- Explaining and interpreting a given situation from the perspective of its integration within a national strategy of enforcing the European Union law;
- Selecting efficient forms of promoting legal institutions typical for the field of European Union law;
- Assessing and validating means of enforcing the law of the European Union based on relevant indicators;
- Elaborating documentation to justify a decision;
- Drafting of situations, balances and reports for the authorities with attributions of control.

4. Using the new technologies of information and communication (NTIC) in mass communication in the field of the European Union law:

- Managing various situations in the field of the European Union law in the relationship with the media and other types of public;
- Identifying the specifics of using the various systems and types of computer communication with various internal and external partners;
- Cross using of traditional methods and instruments and of ITC resources in managing a given situation;
- Using standard methods and to assess the quality of the activity and to identify the limits of using various ITC technologies;
- Conceiving professional projects by using ITC means and instruments;
- Strategic planning of the use of NTIC within the European Union law in the context of professional collaboration.

5. The critical analysis of the difficulties arising from the integration of the European Union law in the domestic law system, elaborating methods and instruments of solving such difficulties in a given context:

- Using the techniques and strategies developed in the field of the European Union law;
- Using the legal instruments of the European Union to overpass dysfunctionalities in the activity of the national legal actor;
- Managing dysfunctions resulting from the divergence between the national and European Union law;
- Differential enforcement, on a case to case basis, of the criteria and methods of evaluation used in the European Union law;
- Elaborating and supporting decisions having a strong impact on the destitatory;
- Elaborating of an action plan to remedy dysfunctionalities arising from the relation between the European Union law.

6. Consulting in European Union law in a specialized and organized way:

- Identifying and presenting the variety of national responses to the request of the European Union law;
- Adapting the means and instruments specific to the European Union law in developing projects;
- Planning the organisational behaviour in an international context with the instruments specific to the European Union law;
- Identifying the public perception on the enforcement of European Union law in Romania, by using inquiries, statistics and quality analysis;
- Elaborating several variants for the same legal issue of the European Union law and promoting it through specific means;
- Realizing a project in order to improve the activity of a given organization by using the instruments specific to the European Union law.

Transversal competencies⁷:

1. Fulfilling the professional tasks, in conditions of professional autonomy and independence:
 - Realistic approach – both practical and theoretical – to critical situations of European Union law with high degree of complexity, for the purpose of an efficient solving thereof, respecting the deontological norms;
 - Elaborating a project within the field of European Union law, enforcing knowledge, theories and methods of diagnosis and intervention, as well as rules and principles of professional ethics.
2. Assuming leading roles/functions in professional groups and institutions:
 - Enforcing the techniques of efficient work in the multidisciplinary team, with the main component established in the European Union law, with the fulfilment of coordinating tasks;

⁷ *Transversal competencies* represent value and attitudinal acquisitions that go beyond a certain field/study program and are expressed through the following descriptors: responsibility and autonomy, social interaction, personal and professional development.

- Identifying the professional roles specific for the putting into practice of the European Union law and of the demands of playing a leading part.
- 3. Self guidance through the learning process, diagnosis of formation needs, reflexive analysis

of one's own professional activity:

- Progressive assessment of one own's need of professional formation within the European Union law and of one's perspectives of professional development on the relevant market;
- Identifying the need of professional formation within the European Union law and conceiving a plan of professional development using for this purpose the resources available.

B. EXPECTED LEARNING OUTCOMES ⁸

Expected learning outcomes of the *master's degree program*:

a) *Knowledge*⁹ - *According to the European Qualifications Framework (EQF), the learning outcomes related to qualification level 7, corresponding to university master's studies, require highly specialized knowledge and critical awareness of them, some of them being at the vanguard of the knowledge level from a field of work or study, as the basis of original thinking and/or research:*

- K1. Knowledge, understanding and appropriate use of specialized legal language;
- K2. Knowledge, understanding and appropriate use of domain-specific concepts, theories, paradigms and methodologies;
- K3. Knowledge, understanding and appropriate use of concepts, theories, paradigms and methodologies specific to each specialized discipline and complementary ones;
- K4. Knowledge, understanding and appropriate use of the European Union legislation and of international legal instruments;
- K5. Knowledge of the rules regarding the drafting of specific legal documents (introductory requests, audience notes, conclusions before a court or an arbitration court, commercial contracts, legal opinions, memoranda, specialized analyses, addresses and complaints to public authorities);
- K6. Knowledge of judicial and extrajudicial procedures.

b) *Skills*¹⁰ - *According to the European Qualifications Framework (EQF), the learning outcomes related to qualification level 7, corresponding to university master's studies, involve*

⁸ *Learning outcomes* mean statements that refer to what a learner knows, understands and is able to do at the end of a learning process and are defined as knowledge, skills, responsibility and autonomy.

⁹ *Knowledge* means the result of assimilating information through learning. Knowledge is the set of facts, principles, theories and practices related to a particular field of work or study. Knowledge is described as theoretical and/or factual. Knowledge is expressed through the following descriptors: knowledge, understanding and use of specific language, explanation and interpretation.

¹⁰ *Skill* is the capacity to apply and use knowledge to accomplish tasks and solve problems. Skills are described as cognitive (involving the use of logical, intuitive and creative thinking) or practical (involving manual dexterity and the use of methods, materials, tools and instruments). Skills are expressed through the following descriptors: application, transfer and problem solving, critical and constructive reflection, creativity and innovation.

specialized skills for solving problems in research and/or innovation, for the development of new knowledge and procedures and for integrating knowledge from different fields:

- A1. Applying the relevant knowledge in gathering data and information related to a specific legal issue;
- A2. Using the legislation in force in the analysis of concrete legal situations;
- A3. Using the legislation in force to correctly legally qualify a concrete problem;
- A4. Communication skills in order to document and draft legal applications, and the ability to manage related proceedings;
- A5. Abilities to draft a legal document specific for the proceedings before the ECtHR and the CJEU;
- A6. Critical and constructive reflection on theoretical and practical issues materialized in studies, legislative proposals, comparative research.

*c) **Responsibility and autonomy**¹¹ - According to the European Qualifications Framework (EQF), the learning outcomes related to qualification level 7, corresponding to university master's studies, involve managing and transforming work or study situations that are complex, unpredictable and require new approaches strategic, by taking responsibility to contribute to professional knowledge and practices and/or to review the strategic performance of teams:*

- R1. Managing and carrying out professional tasks efficiently and responsibly, in compliance with the ethical rules specific to the relevant field of activity;
- R2. Implementing and complying with specific professional standards and with the requirements of a periodic self-evaluation of specific performances;
- R3. Effectively using communication resources and sources of information; assisting professional training, both in Romanian and in a foreign language, in compliance with the legislation in force regarding copyright, protection of personal data and the right to the protection of one's image.

3. Occupations that can be practiced on the labor market

- 261201 - Prosecutor
- 261202 - Judge
- 261203 - Magistrate - assistant
- 261204 - Judicial inspector
- 261205 - Judicial assistant
- 261206 - Legal specialist personnel assimilated to judges and prosecutors

4. Ensuring flexible learning routes under the curriculum

The flexibility of the study programme is ensured by optional subjects, facultative subjects and complementary subjects.

¹¹ *Responsibility and autonomy* means the learner's capacity to autonomously and responsibly apply his knowledge and skills.

The optional subjects are proposed for semesters 1-2 and grouped in **optional packages**, which complete the student's specialization path. The student is responsible for choosing such path before the beginning of the university year during which the optional package is available.

The facultative subjects are proposed for the two semesters by the Faculty of Law, which manages the study program, but can also be chosen from the packages offered by other UVT faculties.

In accordance with the provisions of the Regulation on the elaboration of curricula for the study programmes at the West University of Timișoara, so that students can benefit from **credits for volunteer activities** based on the provisions of the Higher Education Law no. 199/2023, as subsequently amended and supplemented (Article 127, paragraph (9)), the discipline *Volunteering* is available each semester in the curricula of all undergraduate and master's degree programs, with optional discipline status, with a number of 2 ECTS credits.

5. Professional activity and student evaluation

The rights, responsibilities and conditions of carrying out the professional activity of students at the West University of Timișoara are regulated by the *Code of Student Rights and Responsibilities* and the *Regulation concerning the professional activity of students from the bachelor and master's degree (first cycle and second cycle degree) of WUT*, approved by the Senate of West University of Timișoara.

The form and the methods of assessment / examination for each subject of the curriculum are established in the Subject sheets.

6. Final examination

The period for writing the master's thesis: starting on the last semester of study. The period for presenting the master's thesis: two sessions (July / September) of the year of study.

Number of credits awarded for writing the master's thesis: 5 credits.

Number of credits awarded for defending the master's thesis: 5 credits.

The topics and the bibliography corresponding to the final exam are published on the website of each faculty and / or on the WUT website before the beginning of each academic year.

The registration for the final exam is conditioned by the student's choice of the topic of the master's thesis within 60 days from the beginning of the academic year of the final year of study.

The submission of the final version of the master's thesis on the e-learning platform is made at least 5 working days before the scheduled date for the start of the exam.

Each master's thesis will be accompanied, at the submission, by the Similarity Report resulting from the verification of the originality of the master's thesis by a specialized software, on the e-learning platform of WUT.

According to the structure of the academic year, at WUT the final exams of university studies can be organized in 3 sessions, usually in July, September and February.

**The 10 credits awarded for defending the master's thesis are additional to the 60 initial credits.*

7. Preparation for the teaching profession (if needed)

The students who wish to opt for a teaching career in the pre-university education system must undergo (in addition to the current study programme) and finalize the *Psycho-pedagogical training programme for certification of teaching competences* and obtain a graduation certificate of the aforementioned programme. At the West University of Timișoara, this programme is organised by the Department for the Training of Teaching Staff (*DPPD*) and its courses may be followed in parallel to university studies or as a post-graduate programme. For further information, please access the following link: <https://dppd.uvt.ro>.
